Happy Labs offer developers to invite new students, build educational buildings and compete with competitors who are engaged in teaching long young magicians. As magic school story progresses, additional tasks and unexpected development tools are displayed. But their requirements will also increase: more often the money will have to wait until it appears in the account. The situation will be recorded by hacking for money - a few minutes and the school develops again. Description - Magic School Story is a comfortable simulator of Magic School for Android with beautiful graphics. The user must build their own educational institution for skilled wizards from scratch. To do this, the player must hire classes from young people who want to learn the magic basics. Thanks to fascinating tasks and the provision of the necessary useful resources, the player has the opportunity to develop a comprehensive school. It's also an opportunity to play with your friends, which increases more interest.
